

# skills & experience

## European Experience

Colliers CRE has an integrated Building Consultancy Division, incorporating project managers, quantity surveyors, architects and building surveyors.

We provide specialist services for commercial banks, real estate Investors, property developers, receivers, central government and local authorities. Our experience encompasses all types of property across the whole of the United Kingdom and overseas.

We have an established track record in Europe in providing services to retailers, corporate occupiers, lenders, high net worth individuals and central government.

As part of Colliers International, a global partnership of independently owned commercial real estate forms, we have unrivalled access to the European market.

Our success in working in different procurement, legislative and labour cultures is illustrated below:

Black and Decker Europe  
**Holland, France, Belgium, Ireland and Germany**  
Design and project management of retail and office fitout

Aldi Gmbh  
Germany  
Project management of new supermarkets
