

## Building Consultancy: Leeds

Colliers CRE has an integrated nationwide Building Consultancy Division, and a local team, which provides a broad range of specialist services for all involved in property and encompassing all types of property.

Our services span the complete spectrum of building consultancy, including project management, architectural design, quantity surveying, planning supervision and building surveying.

We have a clear understanding of the unique requirements of the North East market, gained through our wide experience of working for clients throughout the region.
